

Assignment -3

Bucket And Watson assistant

Assignment Date	7 October 2022
Student Name	NISHANTH R
Student Roll Number	73151921033
Maximum Marks	2 Marks

Questions:

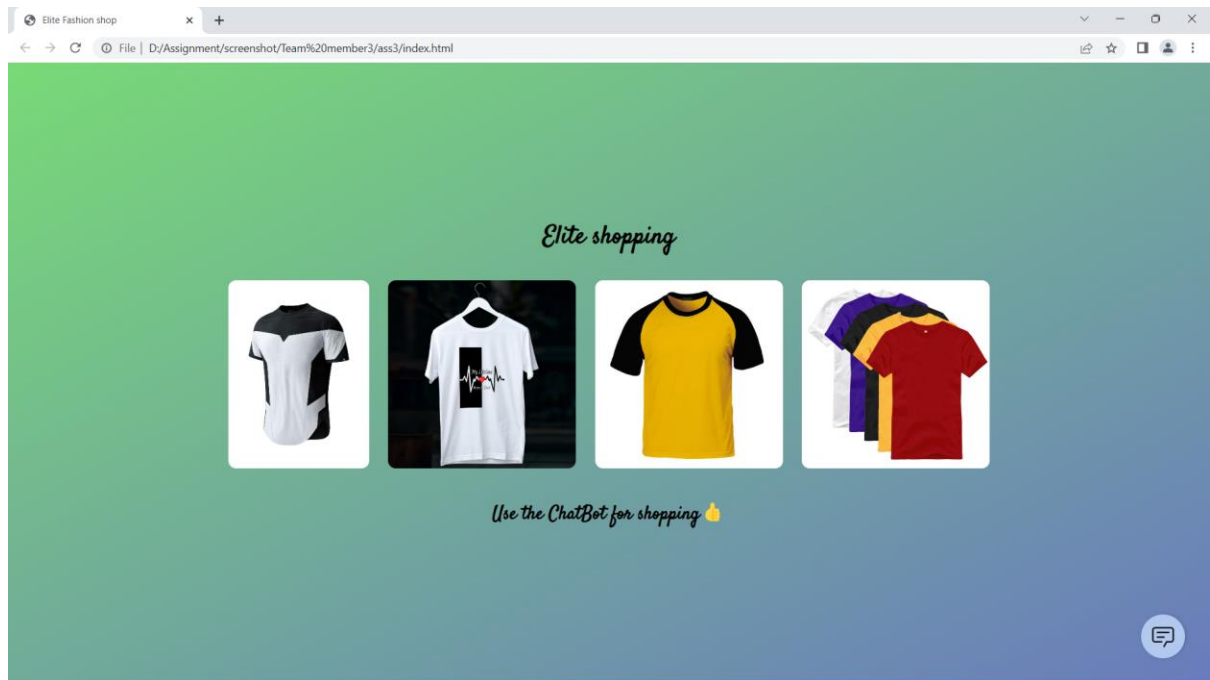

1.Create a Bucket in IBM object storage.

2.Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

Index.html

```
index.html U X # style.css U
index.html > html > head
1 <!DOCTYPE html>
2 <html lang="en">
3
4 <head>
5   <meta charset="UTF-8">
6   <meta http-equiv="X-UA-Compatible" content="IE=edge">
7   <meta name="viewport" content="width=device-width, initial-scale=1.0">
8   <title>Elite Fashion shop </title>
9   <link rel="stylesheet" href="https://imagebucket-rk.s3.jp-tok.cloud-object-storage.appdomain.cloud/style.css">
10  <link rel="stylesheet" href="https://fonts.googleapis.com/css?family=Sofia">
11  <style>
12    body{
13      font-family: "Sofia",sans-serif;
14    }
15  </style>
16 </head>
17
18 <body>
19
20 <h1>Elite shopping</h1>
21 <div>
22   
24   
26   
28   
30 </div>
31 <h2>Use the ChatBot for shopping 🗨️</h2>
32
```

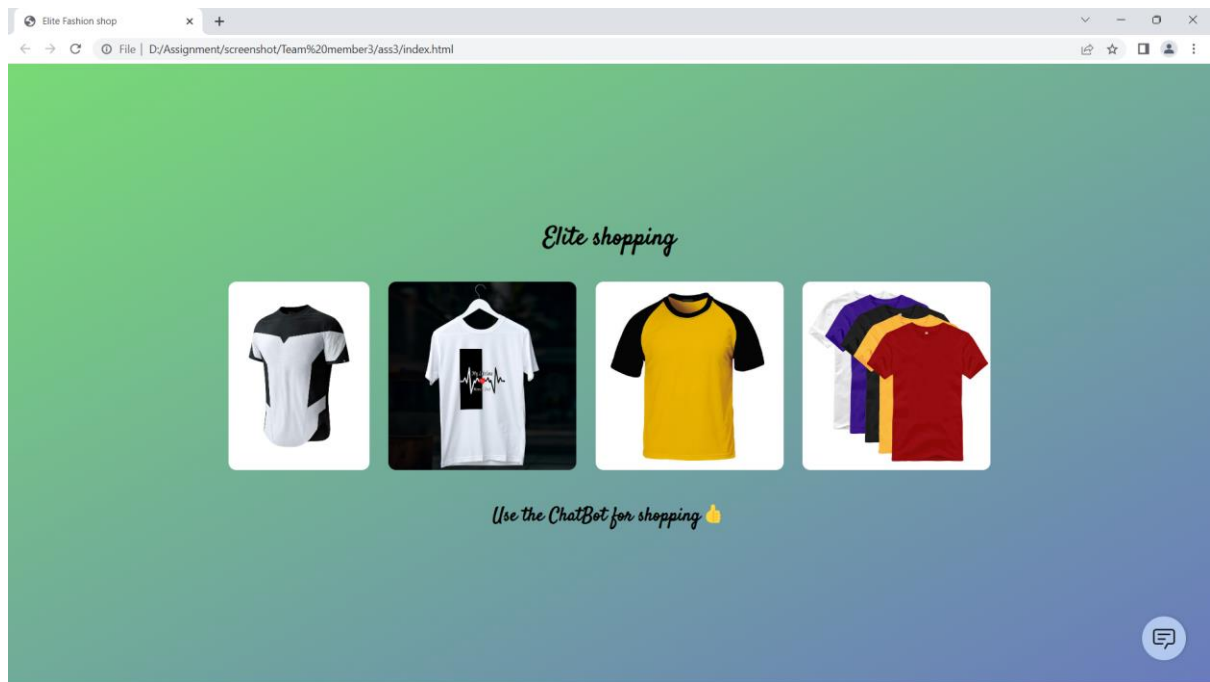

3.Upload a css page to the object storage and use the same page in your HTML code.

```

index.html U X # style.css U
index.html > html > head
1 <!DOCTYPE html>
2 <html lang="en">
3
4 <head>
5   <meta charset="UTF-8">
6   <meta http-equiv="X-UA-Compatible" content="IE=edge">
7   <meta name="viewport" content="width=device-width, initial-scale=1.0">
8   <title>Elite Fashion shop </title>
9   <link rel="stylesheet" href="https://imagebucket-rk.s3.jp-tok.cloud-object-storage.appdomain.cloud/style.css">
10  <link rel="stylesheet" href="https://fonts.googleapis.com/css?family=Sofia">
11  <style>
12    body{
13      font-family: "Sofia",sans-serif;
14    }
15  </style>
16 </head>
17
18 <body>
19
20 <h1>Elite shopping</h1>
21 <div>
22   
24   
26   
28   
30 </div>
31 <h2>Use the ChatBot for shopping 🍌</h2>
32
33 <script>
34   window.watsonAssistantChatOptions = {
35     integrationID: "09451be0-eac2-46dd-b783-d487056346f3", // The ID of this integration.
36     region: "au-syd", // The region your integration is hosted in.
37     serviceInstanceID: "6beadec7-dfbc-491d-97f8-54700e4c09ee", // The ID of your service instance.
38     onload: function(instance) { instance.render(); }
39   };
40   setTimeout(function(){
41     const t=document.createElement('script');
42     t.src="https://web-chat.global.assistant.watson.appdomain.cloud/versions/" + (window.watsonAssistantChatOptions.clientVersion || 'latest') + "/WatsonAssistantChatEntry.js";
43     document.head.appendChild(t);
44   });
45 </script>
46 </body>
47
48 </html>

```

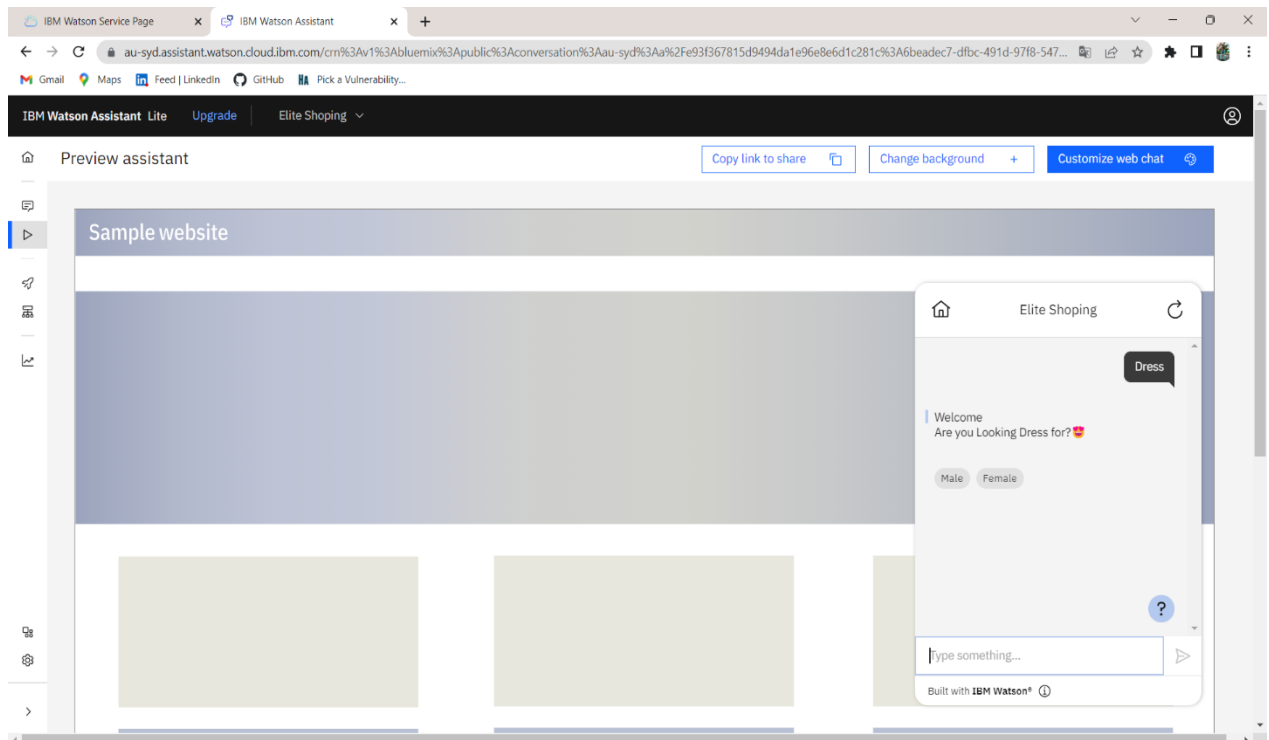

Output:-

4.Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.

Url :- [chatbot](#)<- click

Image-

5. Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page

The screenshot displays the IBM Watson Assistant interface. On the left, a conversation flow is visible with steps 1 through 5. Step 1 is for 'Male' and Step 2 is for 'T shirt'. Step 3 is for 'Female' and Step 4 is for 'Chudidhar'. Step 5 is for 'Saree'. The main area shows the assistant's response: 'Are you Looking Dress for?'. Below this, there are buttons for 'Male' and 'Female', and a 'Continue to next step' button. The interface also includes a 'Preview' button and a 'New step' button.

The screenshot shows the 'Elite Fashion shop' website. The main banner features the text 'Elite shopping' and 'Use the ChatBot for shopping'. Below the banner, there are four images of clothing items: a black and white t-shirt, a white t-shirt with a graphic, a yellow t-shirt, and a stack of colorful t-shirts. On the right side, there is a chatbot overlay titled 'Elite Shopping'. The chatbot interface shows a conversation flow with steps 1 through 5, matching the steps in the IBM Watson Assistant interface. The chatbot also includes a 'Preview' button and a 'New step' button.
